**Subject: Invitation to Become a Founding School Partner
for Courage National Talent Search (CNTS) – Founding Edition 2026**

Dear Principal,

Greetings from Courage National Talent Search (CNTS).

Education has always been about more than academic scores. Every classroom is filled with students who possess unique strengths, perspectives, and abilities that deserve to be discovered, encouraged, and celebrated.

With this vision, we are pleased to invite your institution to become a **Founding School Partner** for the **Courage National Talent Search (CNTS) – Founding Edition 2026**.

CNTS is a national initiative designed to complement school education by helping students discover their strengths beyond traditional examinations. Through thoughtfully designed assessments, meaningful performance insights, and a secure digital platform, we aim to encourage critical thinking, logical reasoning, creativity, problem-solving, and future-ready learning.

We deeply value the role schools play in shaping young minds, and we believe meaningful partnerships with educators are essential to achieving this vision.

As a Founding School Partner, your institution will receive access to dedicated support, streamlined registration, performance reporting, digital recognition, and a collaborative partnership focused on student development.

We have enclosed our School Partnership Prospectus, which provides a comprehensive overview of the initiative, its objectives, partnership process, and benefits for schools and students.

If your institution is interested in joining this initiative, we invite you to submit a School Partnership Request through our official portal:

www.thecouragelibrary.com/for-schools

We sincerely hope to have the opportunity to work alongside your institution in discovering and nurturing the potential of every child.

Thank you for your continued commitment to education and for inspiring the next generation of learners.

Warm regards,

*CNTS Team***Team**
